PROJECT EXPERIENCE

AI-Integrated Rural Education System (Full Stack + AI + n8n Automation)

Buildathon — Selected Top 700 / 70,000 teams

- Offline-first learning platform for rural students without internet.
- React.js + Node.js architecture integrated with n8n workflows.
- Keypad-phone compatible AI voice chatbot via telephony automation.
- Offline caching, background sync, and local storage for reliability.

MERN Task Manager Application

- JWT authentication, CRUD operations, role-based routing.
- Responsive UI with reusable React components.
- Secure REST APIs built with Express.js and MongoDB.

Full-Stack Blog Platform

- Posts, comments, images, search, filters, pagination.
- Enhanced usability with category-based filtering and optimization.

YouTube NLP Summarizer (Python + AI)

- Converts long video lectures into summarized notes using NLP.
- Transcript extraction, text preprocessing, summarization pipeline.
